

JOIN THE HEAT PUMP ASSOCIATION

The Heat Pump Association (HPA) is the leading voice for manufacturers, ancillary equipment suppliers, utility companies, installers and others critical to the heat pump industry's supply chain. We provide a strong, collaborative voice, which promotes robust, fact-based policy positions derived from detailed economic analysis to support growth.

The Association has excellent links to Government and other policy makers, the press, and a wide range of stakeholders that are key to keeping us central to the industry's development. We work in partnership with them to support the design of policy to grow and support our industry.
